SUMMARY

CSE student who builds full stack web applications with React, Next.js, Node.js, Express and MongoDB. Strong problem-solving foundation from competitive programming (2x ICPC Dhaka Regionalist, CodeChef 2-star). Comfortable working in teams, explaining technical ideas clearly, and shipping features end to end.

EDUCATION

BSc in Computer Science and Engineering | Chandpur Science and Technology University | Session 2022-23 | 3rd year, 2nd semester

PROJECTS

BazarDor | Next.js 16, TypeScript, Tailwind CSS, BetterAuth, MongoDB | GitHub

- Price-tracking dashboard for daily grocery essentials (rice, lentils, oil, vegetables, fish, meat, dairy, spices) with category filtering and price breakdowns.
- Built multi-provider authentication (email/password, Google, GitHub) with BetterAuth, plus a profile dashboard, toast notifications and skeleton loaders.

FitLog | Next.js 16, TypeScript, Tailwind CSS, Context API | GitHub

- Workout library where users browse workouts, save favorites and build a daily plan (max 5) with sorting, metrics, mark-as-done and remove; plan persists in localStorage.

Dev Stack | React, TypeScript, Tailwind CSS, DaisyUI, Vite | GitHub

- Responsive tech showcase where users build a personal stack from JSON-driven cards, with duplicate-add warnings, toast feedback and a sidebar to manage items.
